

# Azure Lab 03

CREATE A STORAGE ACCOUNT.  
ROHA ALI (2112124)

2. From the All services blade, search for and select Storage accounts, and then click + Add, + Create, + New.

3. On the Basics tab of the Create storage account blade, fill in the following information (replace xxxx in the name of the storage account with letters and digits such that the name is globally unique). Leave the defaults for everything else.

The screenshot shows the 'Create a storage account' blade in the Microsoft Azure portal. The 'Project details' section has 'Subscription' set to 'Azure for Students' and 'Resource group' set to '(New) mygroup'. The 'Instance details' section has 'Storage account name' set to 'storageaccountroha', 'Region' set to '(US) East US', 'Primary service' set to 'Select a primary service', 'Performance' set to 'Standard: Recommended for most scenarios (general-purpose v2 account)', and 'Redundancy' set to 'Locally-redundant storage (LRS)'. At the bottom, there are 'Previous', 'Next', and 'Review + create' buttons.

5. Click Review + Create to review your storage account settings and allow Azure to validate the configuration.
